Research papers

Wave energy transformation on natural profiles T.C. Lippmann, A.H. Brookins and E.B. Thornton	1
Extreme waves in shallow and intermediate water depths T.E. Baldock and C. Swan.	21
An experiment on harbour resonance induced by incident regular waves and irregular short waves P. De Girolamo	47
Sediment suspension in oscillatory flow: measurements of instantaneous concentration at high shear C. Staub, I.G. Jonsson and I.A. Svendsen	67
Dynamic response of fluid mud in a submarine trench to water waves F.C.K. Ting and W.J. Lemasson	97

Book reviews

<i>Hydroelasticity in Marine Technology</i> , by O. Faltinsen et al. — Per Bruun	123
<i>Physical Models and Laboratory Techniques in Coastal Engineering</i> , by S.A. Hughes — E. Mansard	124
<i>Ocean Disposal of Wastewater</i> , by I.R. Wood et al. — G. Lawrence	126
<i>Announcement</i>	129

Research papers

Dynamics of surf-zone turbulence in a spilling breaker F.C.K. Ting and J.T. Kirby	131
Wave set-up on coral reefs. 1. Set-up and wave-generated flow on an idealised two dimensional horizontal reef M.R. Gourlay	161
Cross-shore hydrodynamics and profile response modeling R. Srinivas and R.G. Dean	195
Correlation between individual waves in a real sea state R.J. Sobey.	223
Bed shear stress coefficients for longshore currents over a barred profile D.J. Whitford and E.B. Thornton	243
Wave forces on vertical cylinders upon shoals A. Kyte and A. Tørum	263

Book review

<i>Offshore Structural Modelling</i> , by S.K. Chakrabarti — R.T. Hudspeth	287
